Helsinki Energy Challenge: Disqualified applications (*Hylätyt hakemukset*)

| Submission/ Application title | Reason for disqualification |
|-------------------------------|--|
| A Blue Clue | The application is contrary to the Competition program: application does not correspond to what was requested (The application discusses about tidal wave energy and electricity production but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| Brilliant Light Power, Inc. | The application is contrary to the Competition program: only one team member (competition rule: the team must consist of at least two (2) team members) |
| Cocoon Street | The application is contrary to the Competition program: application does not correspond to what was requested (The application briefly describes an idea to cover the streets with a futuristic cocoon but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| Eco Wave Power | The application is contrary to the Competition program: application does not correspond to what was requested (The application discusses about a wave energy technology and energy production but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| Energiaterapiia | The application is contrary to the Competition program: (1) Application does not correspond to what was requested (The application briefly mentions wind, wave and energy but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki); (2) Requested information not provided (Capacity question field empty) |
| Fiera Group Australia | The application is contrary to the Competition program: only one team member (competition rule: the team must consist of at least two (2) team members) |
| Future Energy Group | The application is contrary to the Competition program: only one team member (competition rule: the team must consist of at least two (2) team members) |
| ghfdhfdghdfghdfhd | The application is contrary to the Competition program: (1) The requested information has not been provided (In the application form the requested information concerning Cost impact, Implementation Schedule and Capacity has not been given); (2) Only one team member (competition rule: the team must consist of at least two (2) team members) |

|------------------------------------|--|
| Greenhope | The application is contrary to the Competition program: application does not correspond to what was requested (The application discusses about various issues, such as cooking habits of people in rural area, but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| Harmonie énergétique | The application is contrary to the competition rule: application filled in French (Competition rule: all competition entries must be written in English; applications in other languages will not be accepted) |
| Heikki Karjalainen Helena Paunonen | The application is contrary to the Competition program: The requested information has not been provided (In the application form the requested information concerning Cost impact has not been provided; The requested information about the other team member has not been provided) |
| Helsinki 2035 | The application is contrary to the Competition program: (1) Only one team member (competition rule: the team must consist of at least two (2) team members); (2) The requested information has not been provided) (in the application form only question field "Climate impact" has been filled in, others have not been answered) |
| HydroLink | The application is contrary to the Competition program: application does not correspond to what was requested (The application discusses about hydro electricity but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| iFarm | The application is contrary to the Competition program: application does not correspond to what was requested (The application discusses about vegetable food production and smart cultivation of plants but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| Jet Olin | The application is contrary to the competition rule: application filled in Finnish (competition rule: all competition entries must be written in English; applications in other languages will not be accepted) |
| Kaivo | The application is contrary to the competition rule: application filled in Finnish (competition rule: all competition entries must be written in English; applications in other languages will not be accepted) |
| Kalon | The application is contrary to the Competition program: The requested information has not been provided (in the application form the requested information concerning e.g. Cost impact and Capacity has not been provided) |

| | |
|--------------------------|--|
| Lesma | The application is contrary to the Competition program: (1) Application does not correspond to what was requested (The application discusses about a social app for all but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki); (2) Requested information has not been provided (in the application form the requested information concerning e.g. Climate impact has not been provided) |
| Motau Farming And Energy | The application is contrary to the Competition program: application does not correspond to what was requested (The application discusses briefly about a green plant for power and transportation but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| Plant and Nature Power | The application is contrary to the Competition program: Requested information has not been provided (in the application form the requested information concerning e.g. Cost impact has not been provided) |
| Sharpheads | The application is contrary to the Competition program: Requested information has not been provided (In the application form the requested information concerning Cost impact has not been provided) |
| Team Lahti | The application is contrary to the competition rule: application filled in Finnish (competition rule: all competition entries must be written in English; applications in other languages will not be accepted) |
| Tornado | The application is contrary to the Competition program: Application does not correspond to what was requested and requested information has not been provided (The application discusses about utilizing wind blows and car movements in power generation but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki); In the application form the requested information concerning e.g. Reliability and Security of Supply has not been provided) |
| UniKL MFI | The application is contrary to the Competition program: Application does not correspond to what was requested (The application discusses about cleaning device but does not provide what was requested - a plan on how to decarbonize the heating of Helsinki) |
| Vacuum energy | The application is contrary to the Competition program: only one team member (competition rule: the team must consist of at least two (2) team members) |
| Wind power | The application is contrary to the competition rule: application filled in Russian (Competition rule: all competition entries must be written in English; applications in other languages will not be accepted) |
