## Applicant organisation

To complete this section, you will need your organisation's identification number (OID). Since 2019, the Organisation ID has replaced the Participant Identification Code (PIC) as unique identifier for actions managed by the Erasmus+ National Agencies.

**If your organisation has previously participated in Erasmus+ with a PIC number, an OID has been assigned to it automatically. In that case, you must not register your organisation again.** Follow this link to find the OID that has been assigned to your PIC: [Organisation Registration System](#)

You can also visit the same page to register a new organisation that never had a PIC or an OID, or to update existing information about your organisation.

## Objectives and activity plan

### Objectives

The following is the list of your objectives and your estimated yearly activity targets. Please consider these objectives carefully when requesting your activities in the next section. Above all, you should make sure that the activities you request can contribute to achieving your objectives - this will be one of the key measures for evaluating your activities once they are finished.

Objective 1 : We want to provide all kind of youth possibilities to be active European citizens, to do joint projects, learn from each other and get European friends. Empower all youth, give them all possibilities to make friends, new connections and learn empathy skills, cooperation and responsibility. To allocate half of the funding to youth that otherwise would not have these possibilities is in line with our and Erasmus+ strategies. The other half of the youth exchange funding will be apply for by the youth. Strengthening the youths' agency and youth work with groups and communities are the relevant youth work models as well as to inspire youth to be active citizens, to make an impact and do their independent activities.

Objective 2 : We want to be active learners and share knowledge on the European youth field. We want to share and get knowledge on new trends among youth and youth work in Europe. We want to enlarge our network and do stuff mobilities to learn more of youth trends and issues. Knowledge sharing, cooperation increases the quality of youth work. Half of the stuff mobilities would be applied by the youth workers according their needs and other half are chosen by the executive team, so we can learn from European on current issues and trends in the youth work. The model to safeguard the interests and make an impact on living conditions of the youth is relevant in these projects and the result will be seen also in better quality and more cooperation in the youth work.

Objective 3 : To assure the youth can make a wider impact in EU and youth work issues, that concern them. We want to provide youth possibilities to be active European citizens, to do joint projects, learn from each other and get European friends. Participatory projects can also safeguard the interests and make an impact on living conditions of the youth. The models in participatory projects are to inspire youth to be active citizens, to make an impact and do their independent activities and to do youth work with groups and communities.

### Activity plan

The following table shows your estimated yearly targets for number of activities and participants as indicated in your accreditation.

These are provided for information and you can deviate from them. Please note though that you will not be granted funds for a number of participants, which is more than 30% higher than the number of participants indicated here.

	Year 2021		Year 2022		Year 2023	
	Number of activities	Number of participants	Number of activities	Number of participants	Number of activities	Number of participants
Learner mobility	3	60	4	80	5	169
Staff mobility	2	8	3	16	4	15
Participation activities	0	0	2	34	3	46

## Activities

In this section, you are requested to enter information on the activities you intend to implement in the frame of this budget request.

How does the budget request work?

Based on the information provided in this section, a budget will be generated using a system of average costs. At final report level, your final grant will be calculated based on the exact flows of participants and associated unit costs as defined in the Programme Guide.

The figures that you provide in the first table below will also serve as your targets for implementation. If the National Agency is not able to provide funding for all of your requested activities and/or participants, the targets included in your grant agreement will be adjusted accordingly. At the end of the grant agreement, your results will be evaluated based on the agreed target figures. For this reason, it is important to make the most realistic request possible, rather than the most ambitious one. During implementation, the actual number of participants and duration of activities may vary, but the system will allow reasonable adjustments. You should always be able to explain your choices in relation to your objectives.

Please complete the following table with the required information for each activity you intend to implement. An activity is defined by the same location, the same time frame and the same scope.

Please refer to the description below when assigning policy priorities to your activities. The policy priorities are fully described in the Programme Guide and the budget allocation documentation published on the website of your National Agency.

Virtual components and/or digital technology	The activity will integrate the use of digital tools and learning methods to complement the physical mobility activities or to improve quality.
Project green practices	The activity will be designed in an environmentally friendly way and promote environmentally sustainable and responsible behaviour among its participants.
Participation in democratic life	The activity will promote youth participation in democratic life, support social and civic engagement and will aim to ensure that all young people have the necessary resources to take part in society.
EU youth goals	The activity will tackle one or more of the EU Youth Goals. If applicable, please consult the documentation published by your National Agency for further details.

Have you, at this stage, identified the need of any specific additional funding such as exceptional costs for expensive travel, visas etc.? If this is the case, please fill in the table below.

For detailed information on the costs that can be covered under exceptional costs or inclusion support, please refer to the funding rules in the Programme Guide.

If additional needs arise at a later stage, for example if you decide to involve more participants with fewer opportunities or if you need to cover costs that could not be estimated at this stage, you will be able to request additional funding during implementation.

In this section you may request Exceptional costs and Inclusion support for participants. As opposed to standardised unit costs applicable for other types of costs, these budget categories are funded based on actual expenses. These non-standard costs require specific description and justification in order to be approved. Before making a request, please read the funding rules in the Programme Guide to make sure the type of expense you are requesting is eligible.
