This letter declares	<i>City of Helsinki</i>
further Party, intent to collaborate in the research project: Ethical AI for the Governance of the Society (ETAİROS)	
Party Website	www.hel.fi
Contact info	<i>Mikko Rusama, Chief Digital Officer, tel. +358 50 57 22229</i>
Party contributes to	<i>ETAİROS project Co-Innovation Forum (CIF) as a Member</i>
<i>The objective of the participation is:</i>	
<i>Write here interests and expectations for the CIF work</i>	
<i>City of Helsinki aims to be the most functional city in the world that makes the best use of digitalization. The aim is to be more proactive and personalized in serving our residents and different stakeholders. Ethical use of data and AI are essential enablers to this vision. We expect CIF work to help us working towards this vision and finding practical solutions to ethical issues together with the leading experts.</i>	

The main collaboration partners of the party will be:
ETAİROS consortium

The proposed collaboration covers a period of	3+3	years
From	01.06.2019	to 31.08.2025

The role of CIF and planned activities	The Co-Innovation Forum is a tool 1) for co-innovation of applicability and exploitation of AI in the society, 2) for elaborating and discussing thematic AI cases provided by Key Case Partners, and 3) for evaluating practical and social relevance and generalization of research results, and 4) for contributing to the outreach and visibility of the project. CIF consists of 1) Key Case Partners with specific thematic cases of AI, and 2) representatives of committed collaborating organizations and companies. CIF meets regularly 3-4 times per year. Membership is company/organization specific; each organization nominates 1-2 primary contact persons in CIF; participation is however not limited to these persons.
